

COLÁISTE CLAVIN

REVISED SUBSTANCE USE POLICY

INTRODUCTION

The National Drugs Strategy highlights the significant contribution that schools can make in the prevention of substance misuse. The school is well aware that the exposure to tobacco, alcohol, behaviour altering substances and drugs is a reality for many young people today. The welfare and protection of our students have been central in prompting the school to address and respond to what are frequently sensitive issues.

SCOPE

This policy applies to the entire school community, visitors to the school and workers employed at the school. For the purposes of this policy substance use refers to: a) use of alcohol, tobacco, e-cigarettes and vaping devices, b) use of illegal drugs, c) illicit use of other substances e.g. sprays, aerosols, chemicals, medicines and many other substances in daily use, d) Use of any substances such as psychotropic drugs that could adversely affect the health and well-being of students. The school at its discretion will determine what substances are deemed to be unacceptable for use or possession by students.

MEDIA ENQUIRIES

It is inappropriate for the school to comment on any individual matter when an investigation is in progress other than to outline its policy and procedures for dealing with incidents. However, in the interests of the school's reputation, the Board of Management may clarify the school's position regarding an incident after the investigation has been concluded. In dealing with media enquiries, the Principal or Chairperson of the Board of Management will act as Spokesperson on behalf of the school.
